On the other-hand, if a total of both columns show less than ten marks, how is the reader to know whether the difference was in splits or missed spares, which is one of the most important features sought in a score? Fletcher for over 80 years—the genuine Castoria. We respectfully call the attention of fathers and mothers when purchasing Castoria to see that the wrapper bears his signature in black. When the wrapper is removed the same signature appears on both sides of the bottle in red. Parents who have used Castoria for their little ones in the past years need no warning against counterfeits and imitations, but our present duty is to call the attention of the younger generation to the great danger of introducing into their families spurious medicines.

It is to be regretted that there are people who are now engaged in the nefarious business of putting up and selling all sorts of substitutes, or what should more properly be termed counterfeits, for medicinal preparations not only for adults, but worse yet, for children's medicines. ## Boston Orchestra Plays Sibelius's First Symphony.

Olga Samaroff Gives Her Exposition of Tschaikowsky's Piano Concerto.

Symphony Orchestra's fourth concert at Carnegle Hall last night. The mournful melody with which the first movement begins selzes upon the imagination and holds it through all its variations. The second movement is full of charty. In the scherzo, if something Tork has more and better than any city is lacking of the original fascination in America—will not have to walk home amends. The finale is a broad and passionate development of the original theme, reaching a fine climax. The composition, in the light of Dr. Karl Muck's illuminative reading, got a splendid per-formance last night, the master musicians of this splendid band playing at their best.

Olga 'Samaroff was the soloist tr Tschalkowsky's plane concerte in B flat minor. This beautiful composition has been made familiar this season.
